

Hazing and Bullying Report – 2010-2011

Hazing and bullying, in all forms, are prohibited in the Fairfield School District. Fairfield Board of Education policy JFCF outlines steps that administrators, teachers and all other district employees will take to prevent and/or stop any planned or ongoing cases of hazing or bullying.

In accordance with state law and district policy, a report is prepared semiannually for the board president on the number of recorded bullying incidents. That report is also to be posted on the district website.

In the 2010-2011 school year, for the period Jan. 1, 2011 through June 30, 2011, nine incidents of hazing and/or bullying were reported in the district.

Fairfield Board of Education regulation JFCF-R details specific steps that district employees will follow upon learning about any incident of reported hazing or bullying. These incidents were addressed under the steps of this policy.
