

STAFF PARTICIPATION IN POLITICAL ACTIVITIES

Employees of the District have the same fundamental civic responsibilities and privileges as other citizens. Among these are campaigning for an elective public office and holding an elective or appointive public office.

The terms and conditions under which the employee may continue employment as he/she seeks or holds such office will be determined in compliance with law.

In connection with campaigning, no employee will use District time, monies, facilities, equipment or supplies nor will the employee discuss the campaign with school personnel or students during the working day.
