

HOME-BOUND INSTRUCTION

The Board will provide instruction, as appropriate, for students confined to home in accordance with the following:

1. Home instruction teachers will be provided for students at the request of parents only after such instruction is approved by the Superintendent and verified by a licensed physician. Home instruction teachers who are provided by the school, will be paid at the appropriate current hourly rate; however, payment will not exceed five hours per week for any one student. Home instruction teachers will be provided at the rate of one hour per week for each major subject, if qualified teachers can be secured.
2. Home instruction teachers may be the student's regular classroom teachers only if the Superintendent has given permission.
3. Home instruction teachers must be certificated teachers who hold valid State Department of Education certificates.
4. All work must meet the standards of the State Department of Education and be done under the supervision of the Superintendent. If the home instruction teacher is not the student's regular classroom teacher, the building principal will arrange cooperative communications among the regular classroom teachers and home instructors to ensure a proper program of instruction for the student.
5. The duration and time of any home instruction program will be determined by the Superintendent, on the basis of information received from teachers, parents, medical personnel and the building principal.
