SCHOOL VOLUNTEERS

The Board of Education encourages the teamwork of salaried staff and volunteers so that students, their parents, and the community are offered the best possible education. The use of citizens as volunteers within the school program enhances the educational process not only for students, but for the community. Volunteers provide unique talents, skills, and knowledge that support the school in providing students with an opportunity to be successful. Further, volunteers help promote positive public relations regarding the school and its mission.

Recruitment and selection of volunteers is done at the local building level. Interested individuals should contact the building principal or his/her designee. The interests and abilities of the volunteers will be considered when making assignments. It is the responsibility of the building principal to accept and assign volunteers to the school program, in accordance with regulations developed by the Superintendent. All volunteers are subject to the authority of the principal and direction by the classroom teacher or other school employee.

Current and prospective volunteers who have or will have unsupervised access to children on a regular basis will be subject to a criminal record check (BCII) and/or required to authorize release of their military personnel records.
