

PHYSICAL EXAMINATIONS OF STUDENTS

The District requires health records of students on the following bases:

1. Kindergarten and first grade students entering school for the first time must have a completed health record (including dental and physical exams) before being admitted to school.
2. Health records are requested of all students transferring into the District. If the previous school does not forward a record or if it is incomplete, it will be the parents' responsibility to comply with health requirements for students.
3. Students must have physical examinations prior to their participation in interscholastic athletic programs.
