

CAREER BASED INTERVENTION

CAREER BASED INTERVENTION PROGRAM with Work Based Component

10-12 Multiple Units 2 semesters (full year)

(Prerequisite: Acceptance into program by Butler Tech.)

The Career Based Intervention Program is a career-technical program designed for students in grades 7-12 who are eligible based on academic and/or economic need. The CBI Program is designed to help students improve academic competence, graduate from high school, develop employability skills, set goals and implement a career plan, and participate in a career pathway in preparing for postsecondary education and future careers.

This course provides students with an opportunity to meet the academic needs for graduation while allowing for students to maintain appropriate employment within the business world. Students will complete courses both on-line and in a traditional setting, allowing students to both recover credits and move forward with their academic career. Students must meet the criteria set by the Butler Technology and Career Development Schools for both employment and academic eligibility.

The CBI Program will provide a combination of educational and service learning opportunities. All students are expected to participate in a Community Based Student Organization. This student club provides opportunities for local and state competitions as well as venues for service learning and community service.

CAREER BASED INTERVENTION PROGRAM/LIFE CONNECTIONS

10-12 1 credit 2 semesters (full year)

Prerequisite: Acceptance into program by Butler Tech

PREREQUISITE: Acceptance into program by Butler Tech

The Life Connections Career Based Intervention Program is a career-technical program designed for students who are eligible based on academic and/or economic need. The CBI Program is designed to help students improve academic competence, graduate from high school, develop employability skills, set goals and implement a career plan, and participate in a career pathway in preparing for postsecondary education and future careers.

This course provides students with an opportunity for credit recovery through the use of online classes to meet the academic needs for graduation while having the opportunity to maintain appropriate employment within the business world. The program is designed to meet the academic needs of students by meeting during non-traditional, afternoon and evening hours
