

CERTIFICATED STAFF CONSULTING ACTIVITIES

Certificated staff consulting activities on instructionally related matters will be regarded as an indication of professional progress. Performance of such consulting activities shall not occur during working hours unless written consent to do so is given by the Superintendent or designee; however, school employees shall not accept payment for such activities performed during working hours. If school facilities are used after hours by employees who receive non-Board-paid compensation for their service, the employee shall follow the established building use procedures.
