

DEVELOPMENT OF PHILOSOPHY OF EDUCATION

The Board's philosophy of education will give direction to the educational program and daily operations of the District. The philosophy will allow for that flexibility necessary in an ever-changing society. The philosophy will provide general criteria by which to assess the District's program and operations.

The Board and the Superintendent will periodically evaluate the District's philosophy of education. Suggestions from both staff and community will be considered. The Board will revise or confirm the existing philosophy or write a new statement of philosophy.

All building and course of study philosophies will reflect and extend the Board's philosophy. The Superintendent will disseminate the Board's philosophy of education to all staff members and direct that it be published in all handbooks.
