

ASSIGNMENT OF STUDENTS TO SCHOOLS

The Board will approve attendance zones. Students will attend the school or paired school which serves the attendance zone in which their parents or legal guardians reside or, upon acceptance, the student may attend a magnet school which serves a larger zone or the entire District.

The Superintendent has authority to assign students to schools. The Superintendent or designee is authorized to make exceptions on the basis of hardship and student need and to assign a student to a school outside his/her own attendance area.
