

INOCULATIONS OF STUDENTS

All students entering kindergarten and all new students in grades one through twelve are required to provide acceptable written proof of required immunizations on file according to State of Ohio guidelines.

Students eligible for kindergarten and students new to the District must present written evidence of similar immunizations, or written evidence to indicate that they are in the process of receiving such immunizations, to be completed no later than the day of entrance. Students failing to complete such immunizations within 14 days after entering are not permitted to return to school.

All new students in kindergarten through grade twelve enrolling from other countries or an area of the United States considered to be at risk for T.B. will need a Mantoux T.B. test after arrival in this county.

The required immunizations may be waived if a physician certifies in writing that such immunizations are inadvisable for medical reasons, or if the parent or guardian presents a written statement of religious or philosophical objections.
